**Experiments using spatial sampling (Test Number 1).**

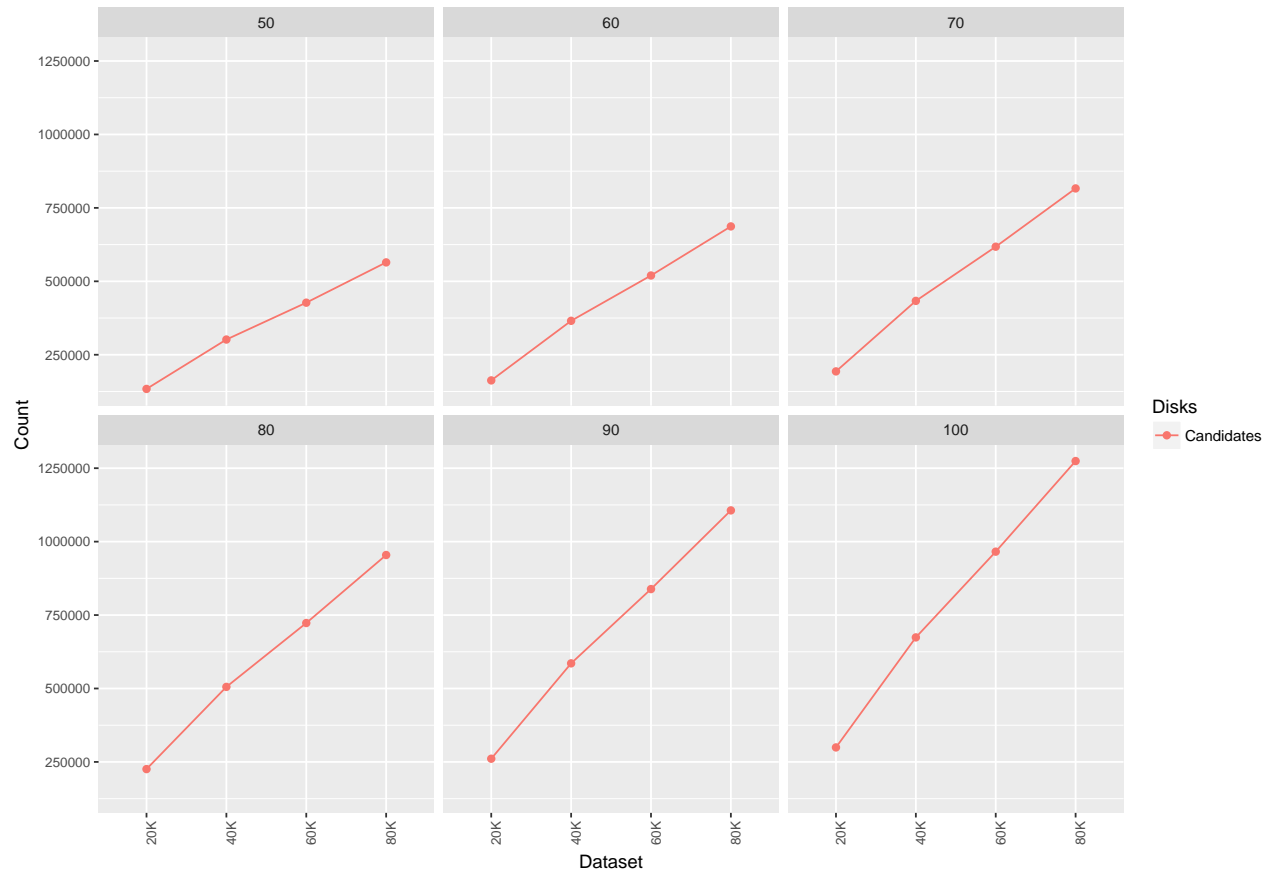

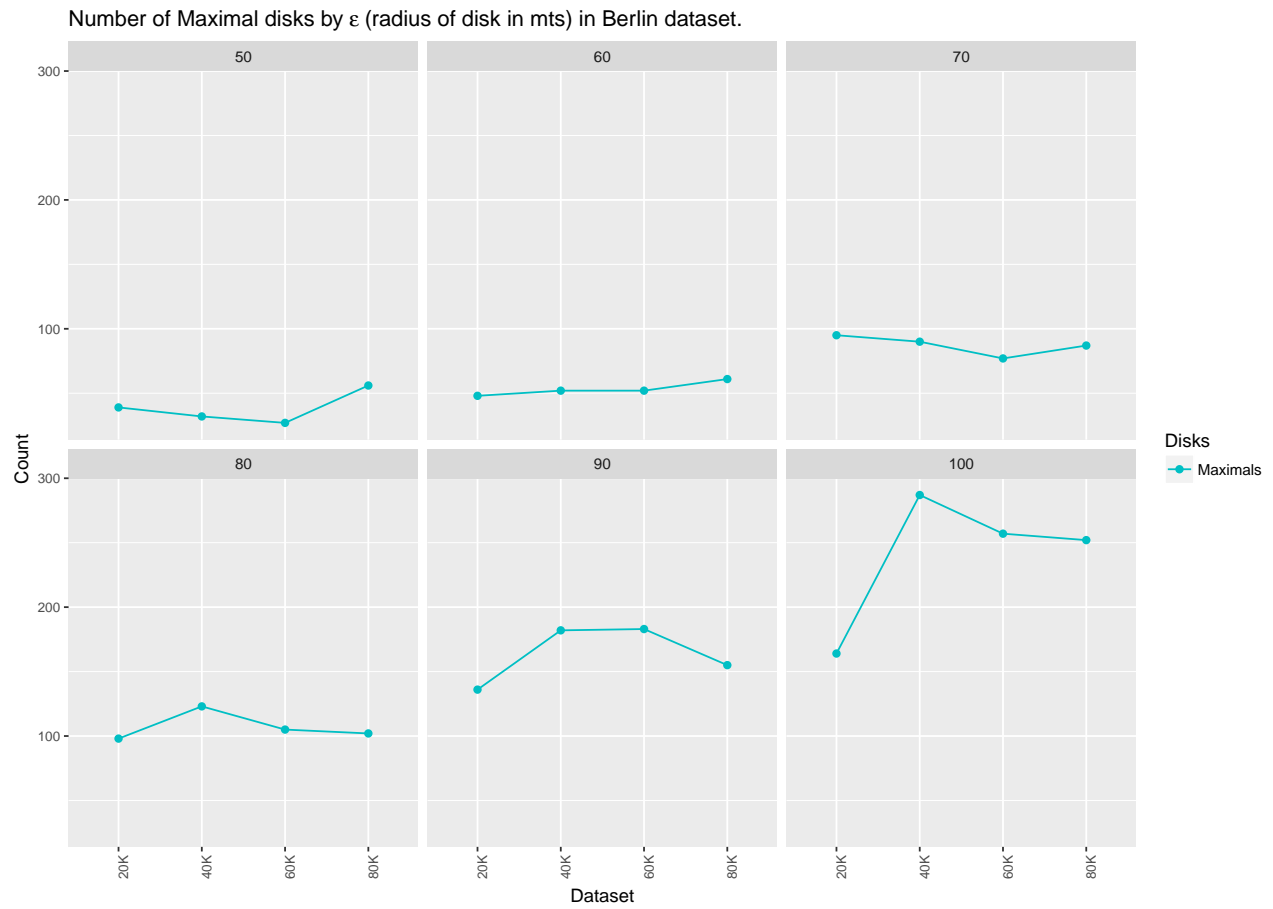

**Experiments using spatial sampling (Test Number 2).**

Number of candidate and maximal disks (Test Number 1).

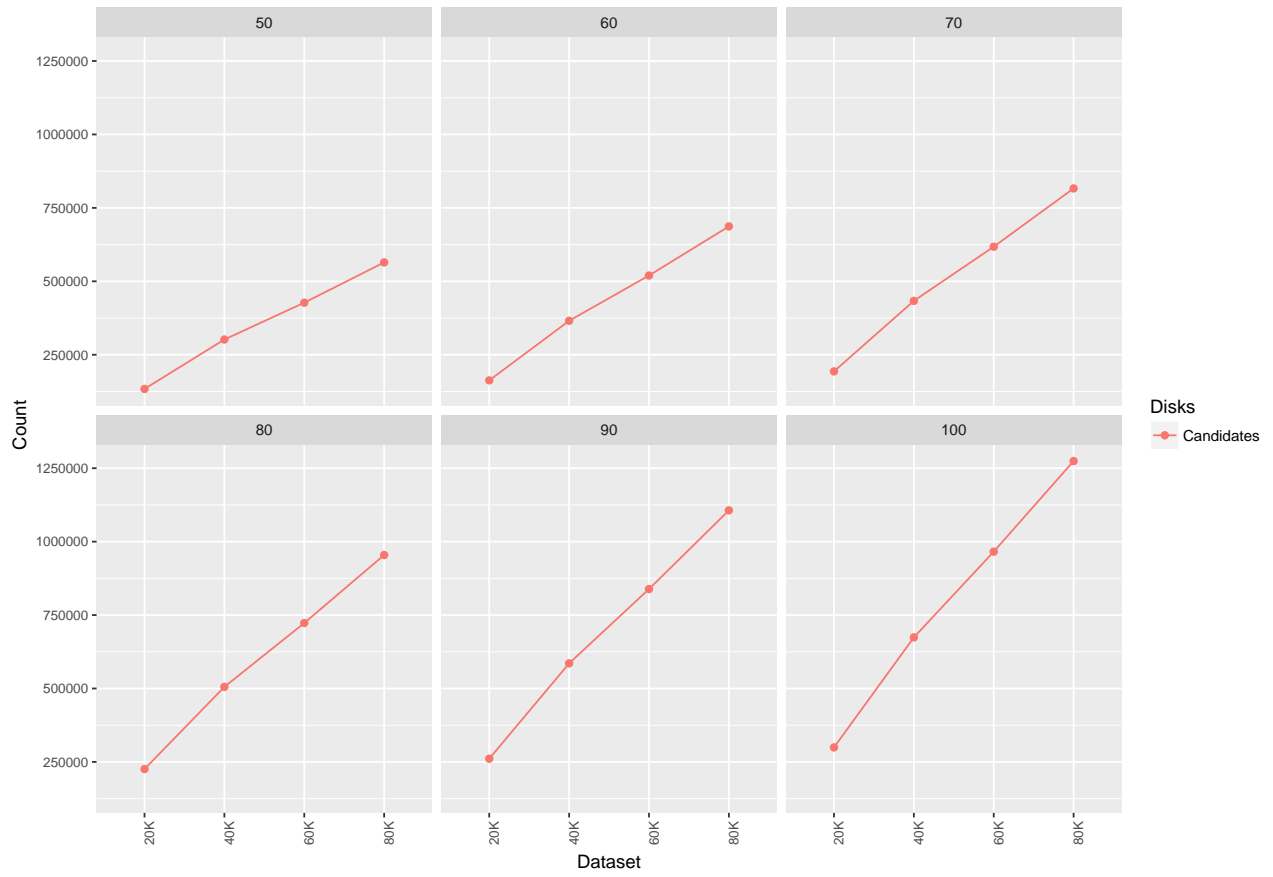

Number of Candidate disks by  $\epsilon$  (radius of disk in mts) in Berlin dataset.

Number of candidate and maximal disks (Test Number 2).

Number of Candidate disks by  $\epsilon$  (radius of disk in mts) in Berlin dataset.

Number of Maximal disks by  $\epsilon$  (radius of disk in mts) in Berlin dataset.
